

TOP TEN REASONS TO RECYCLE

1 GOOD FOR OUR ECONOMY

Manufacturing companies rely on recycling programs to provide raw materials they need to make new products.

2 CREATES JOBS

More than 56,000 recycling and reuse enterprises employ 1.1 million workers nationwide.

3 REDUCES WASTE

The average American discards seven and a half pounds of garbage every day. Most of this garbage goes into to landfills, where it's compacted and buried.

4 GOOD FOR THE ENVIRONMENT

Recycling requires far less energy, uses fewer natural resources, and keeps waste from piling up in landfills.

5 SAVES ENERGY

Recycling offers significant energy savings over manufacturing with virgin materials. (Manufacturing with recycled aluminum cans uses 95% less energy.)

6 PRESERVES LANDFILL SPACE

No one wants to live next to a landfill. Recycling preserves existing landfill space.

7 PREVENTS GLOBAL WARMING

Recycling solid waste prevents the release of millions of metric tons of carbon gases into the air.

8 REDUCES WATER POLLUTION

Making goods from recycled materials generates far less water pollution than manufacturing from virgin materials.

9 PROTECTS WILDLIFE

Using recycled materials reduces the need to damage forests, wetlands, rivers and other places essential to wildlife.

10 CREATES NEW DEMAND

Recycling and buying recycled products creates demand for more recycled products, decreasing waste and helping our economy.

HELP US HELP THE ENVIRONMENT!

WASTE SERVICES, INC.

Going green has never been easier with dedicated recycling containers and weekly pickups.

We even recycle your thin plastic...

- Grocery store bags, dry cleaning bags, produce bags, plastic sleeves from newspapers

All kinds of paper...

- White, colored and fax paper, tissue roll cores, clean pizza boxes, soda and beer boxes
